

B2CONSTRUCTORS

Capability Statement

Company Profile

B2 Constructors is a union General and Mechanical Contractor providing Prime Contractor Construction and Maintenance Services to the Federal Government. We bring extensive experience in commercial and industrial construction including HVAC, piping, electrical, controls, structural steel, interior finishes, concrete, full-service and annual-service maintenance contracts of mechanical equipment. Our work force is comprised of skilled journeyman trained in the mechanical and general trades to include pipe fitters, steam fitters, welders, riggers, carpenters, framers and drywallers.

Previous and Current Projects

- **Department of Veterans Affairs – Gainesville, FL (\$1.53M):** Facility Wide Paving, Concrete, Striping and Electrical Upgrades per VA ADA Guidelines
- **Department of Veterans Affairs – West Palm Beach, FL (\$1.05M):** Design-Build replacement of 26kph Deaerator Tank, six Flowmeters, Manual, Control and Safety Relief Valves, PRV Station and Boiler Plant Controls upgrade
- **Department of Veterans Affairs – Atlanta, GA (\$911k):** Five-year full-service contract of nine Centrifugal and Air-Cooled Chillers, VFD's, four 1000-ton Cooling Towers and associated Condenser Water Pumps
- **Federal Bureau of Prisons – Forrest City, AR (\$495k):** Phased construction replacement of two 750-ton Cooling Towers, Piping, Valves with new Electrical, Temperature Controls and building integration

Our Competitive Edge

B2 is unique because we're a self-performing Prime Contractor performing the mechanical and general trades. Our team is built on fifteen years of Corporate America experience as an Owner's Engineer and also the General Contractors Project Manager. We understand both sides of the table and have lived through the pitfalls less experienced contractors may fail to identify. These omissions can mean the difference between successful execution for the client and a project plagued with change orders and delays. Our commitment to the smallest of projects is as unwavering as on our largest of projects. Anything less introduces undue risk to the client, B2 and our subcontractors and is a precursor for a substandard project.
